¶ The Pronostycacion for euer/of Esra Pater.

AS I fynde/ in the Scyence of Astronomye there be .iiij. maners of Coolers in mans bodye of the .iiij. Cōplections. The fyrst is blode, the seconde blacke Cooler, the thyrde Flumes, & the .iiij. Yelowe Coolers. and yf one of the .iiij. lacke, all the bodye wyll be forthwith deade. For as moche as one of them the bodye as the other. And euerychye of them oughte to be at a certayne, for and one of them surmounte the other, all the bodye shall haue domage therby, and all .iiij. be perylous for and the blode surmount the other, he myghte easyer dystroye and ouercome the body, and make hym todye, for he gathereth and congeleth euen ryght on the herte, and taketh awaye the flat spyryte, and the breth, and in that maner (Lesteyng) and is ouercome

me and deade, but at that tyme when the great coutse taketh hym, he maye soone be alwaged to lesse hym a lytell to take awaye a lytell blode frō hym & then all wyll aswage of this peryll.

¶ Also the blacke Cooler is tyghtperyllous, & they surmount al the other they maye domage greatly the bodye and by many and dyuers maners, for they maye cause and make the bodye to fallon the euyll syckenes, and leese his wyt and knowledge, and become a foole, and cause all the bodye to be full of euyll scabbes and ofte tymes to be melyll, and maketh a man to be fearefull and a cowarde, and of many euyl maners. And whē they surmount the other, they be tyght greuous and domageous. And by herbes, flowers, fasting abstynence, dryukes, and medytynes, they maye be aswaged.

¶ The flumes that be whyte be peryllous, when they surmounte the other Coolers of the body, they do great do-

mage and hurt, for they engendre goutes and many other euyll sycknesses that ben colde, and they hurte also the feete, the handes, the raynes, the knees, the legges, and the teeth, and maketh the mouthe and the breath stynkynge, and the nose, and the eares, and causeth many other dyseases & sycknesses, but they maye be aswaged, by herbes, flowers, rotes, drynkes, medycynes, and also by bomyschynge.

¶ Also the yelowe Coolers be perylous/ for when they surmounte the other Coolers in a mannes bodye, they (assorbent) the herte and trauayle the brayne, and maketh all the membres feble and softe, and taketh awaye the wyll and the appetyte from the bodye that he maye not eate nor drynke, and also they chaunge a mannes Coolers and maketh hym to loose his syghte, and become blynde, and they maye be aswaged, as by herbes, Flowers, rootes and by bomyschynge.

saye. And they begynthe. xb. Kalen of August, and dureth to the. iiii. Nonas of Septembre, whiche lea kon is very perylous to take sycknes, and it is also perylous to take dynkes or medycynes, or to lette blode, but yf it be for great nede, and that it muste be after the myddes of the daye.

Of the Cycle that is in the fyrmament that is called Zodiacke.

IT is to vnderstande that there is a Cycle in the fyrmamente that is called Zodiacke, and is deuyded in. xii. euen partes, and those partes be typed the. xii. sygnes in latten, and these be the names.

Aries/ Taurus/ Gemini/ Cancer/ Leo/ Virgo/ Libra/ Scorpio/ Sagittarius/ Capricornus/ Aquarius/ and Pisces. These. xii. Sygnes be in Complection, lyke vnto the foure Elementes

mentes. That is to saye, the fyre, the Ayre, the water, and the Earth. The Fyre is hote and drye, his Element is lykened to the Ramme, the Lyon, and the Shoter: for these be hote and dry also the Ayre is hote and moyste, his Element is lykened to the Chyldren, the Balaunce, and the watter bearer, for they be hote and moyste. The watter is moyste and colde, for to the watter is lykened the Crabbe, the Scorpyon and the Fysshe. the earth is drye and colde, to the Earth is lykened the Bulle, the Mayde, and the Goote, for they be drye and colde.

¶ And euerycye of these sygnes is deuyded in. xxx. euen partes, and these partes ben called degrees in euery degre, and is deuyded in. lx. euen partes and these partes ben called mynutes, and euerye mynute, is deuyded in. lx. euen partes, and these partes be clepped secondes, and so forth to the thyrdes and fourthes.

There

Here folowyth the dyssaunce betwene the Sygnes.

IT is to vnderstande, there be. vii. planets, as Saturnus/Jupiter/Mars/Sol Ven⁹/Mercurius/and Luna. These be the. vii. mouable starres. ¶ The forsayde. xii. Sygnes taketh great power & myghte of the. vii. planettes, and the. vii. planettes taketh great power of ỹ. xii. Sygnes, for the Planettes be to the sygnes, as soule to the body, and the sygnes to the planettes, as body to the soule. For lyke as the body maye do nought without the soule, no more may the soule with out the bodye: no more maye a sygne without a Planet.

IN the month of Januarie, let thee no blode on the.i. day, for it is perylous, ne the.ii. day, ne the.v. daye, ne the.x. daye, ne the.xv. daye, ne the.xix. daye, ne the.xx. day, ne the.xxv. day. But as oft as thou wylt drynke good whyte wyne fastyng, and also take good hede to the dayes that be aboue wrytten, for they ben perylous for to blede on, but the tyme be ryght good for blode lettynge.

Februarie.

¶ In the month of Februarie, eate no potage made of Hockes or Maloyes, for that is venymie. And yf thou haue nede to blede on ỹ wrest of the thombe blede not the .iiij. daye, ne on the .vi. daye, ne on the .viij. daye. But on the xiij. day it is good. Ne blede not on the.

xvii. day, ne on the, xxvi. day, ne on the xxviii, day, but that the lygne be verye good and thou mayst chose.

¶ Marche.

¶ In the month of Marche, eate fyges, rayſyns, and ſwete meates, and drynkes, and hote meates and let the blode on the ryght arme on the. v. day or on the vii. day, or on the. xvii. daye, for that is good agaynſte all maner of Feuers. But beware blede not the fyrſte daye, ne the. xv. daye, ne the. xvi. day, ne the. xix. day ne the. xxviii. daye and thou mayst chose, and yf thou do, loke the lygne be very good.

¶ Apryll.

¶ In the mouthe of Apryll, blede on the lefte arme, on the. iii. day or on the xi. daye, or on, the xv. daye, and thou ſhalt haue no great headache ne leſe thy lyght of all that yeare. And vſe freſhe and hoote meates, but blede not the. vii. daye, ne the. viii. daye, ne the. x. daye, ne the. xx. daye. For theſe

dayes

dayes be not good for blode lettynge

¶ Maye.

¶ In the monyth of Maye, ryse early and eate and drynke betyme, vse hote meates and drynkes, but eate nother of hed nor foote whyle that Maye last and let the blode on the .i. daye, or on the .xviii. daye, on whiche arme thou wylte, or on the .xxvii. daye, or on the xxviii day. And it shal moch helpe the agaynst all maner of euylles, but beware that thou blede not the .iii. daye ne the .vi. daye, ne the .xv. daye.

¶ June.

¶ In the monthe of June, some Phy sytions, say that it is good euery day to drynke a quantytie of colde water fastyng, and rule the of thy meate and thy drynke measurably, and eat letuse and sage, and yf thou haue nede to blede on the .xxviii. daye. For that is good, but beware that thou blede not the .vii. daye, ne the .x. daye, ne the .xv. daye, ne the .xxii. daye.

¶ Julye.

¶ In the monthe of July, kepe the frō lecherye, for than the brayne and the humours ben alwaye open, and blede not in this monthe, but yf thou haue great nede, and than beware alwaye that thou blede not vpon the. xiii. daye, ne on the. xb. daye, ne the. xic. daye, ne the. xvii. daye, for it is daungerous.

¶ Auguste.

¶ In the monthe of August, eate no maner of wortes, nor no maner of hote meates and drynkes of spycerye, nor blede not the. j. daye, ne the. xx. daye, ne the. xxii. daye, ne the xxv. daye. The other dates thou mayst blede for great nede, yf the sygne be good for blode letynge. But not els, and thou loue thy selfe in good healthe.

¶ Septembre.

¶ In the monthe of Septembre, all maner fruyte that is rype, and not enfected, is good for to eate, and bleede on the. xviij. daye, or on the. xxviii. daye.

And

And of the dropsye, frensy, palsy, ne of the fallynge euyl, dreade the not of all that yeare. And yf thou haue neede to blede more, beware that thou blede not the .iij. daye, ne the .iiij. daye, ne the .xvi daye, ne the .xxi. daye, ne the .xxii. daye.

¶ Octobre.

¶ In the monthe of Octobre, drynke good and holsome wine, and blede not but yf great neede make the, and looke that the lygne be verye good, but yet beware that thou blede not on the .iij. daye, ne the .vi. day, ne the .xvi. daye, ne the .xviij. daye, and thou wylt do well.

¶ Nouembre.

¶ In the monthe of Nouembre, blede not but for neede, for all thy blonde is gathered that tyme vpon thyne heade dayne. Bath the not, but vent the a lytell of grailynge, for then be all thyne humours ouerquycke to blede, and yf eale be that thou haue great neede for to bleede, beware of the fyfte daye, the .vi. Daye, the .xb. Daye, the .xiv.

day, the .xxviii. day, and the .xxix. day.

¶ Decembre.

¶ In the monthe of Decembre, blede not, but yf thou haue greate nede for the cale, and blede than vpon the .vi. daye, for it is ryght good, and in cale thou haue more nede to blede, beware of the .vii. daye, the .xv. daye, the .xvi. daye, the .xvii. day, and the .xxii. daye.
